

BrainWise Enterprises

PAIRED PROFILE

Paired Report

A neuroscience-based look at how two people fit, where they pull apart, and what to do about it, mapped to the BrainWise 5P model.

● ROMANTIC CONTEXT

PAIR

Alex & Jordan

DATE COMPLETED

August 6, 2026

RELATIONSHIP CONTEXT

Romantic

IMPORTANT - PLEASE READ

This report interprets two self-report profiles and describes tendencies in how two people may relate. It is not a clinical assessment, a diagnosis, or a judgment about the relationship. If any pattern here involves fear, control, or harm, please seek support from a qualified professional.

THE SHAPE

Your pair in three

1. Headline 1: the pattern that keeps repeating

Detail 1 sentence 1 describing how the pair operates when the pressure is on. Detail 1 sentence 2 describing how the pair operates when the pressure is on. Detail 1 sentence 3 describing how the pair operates when the pressure is on.

DO THIS

Name the pattern out loud within the first two minutes of the next disagreement.

2. Headline 2: the pattern that keeps repeating

Detail 2 sentence 1 describing how the pair operates when the pressure is on. Detail 2 sentence 2 describing how the pair operates when the pressure is on. Detail 2 sentence 3 describing how the pair operates when the pressure is on.

DO THIS

Name the pattern out loud within the first two minutes of the next disagreement.

3. Headline 3: the pattern that keeps repeating

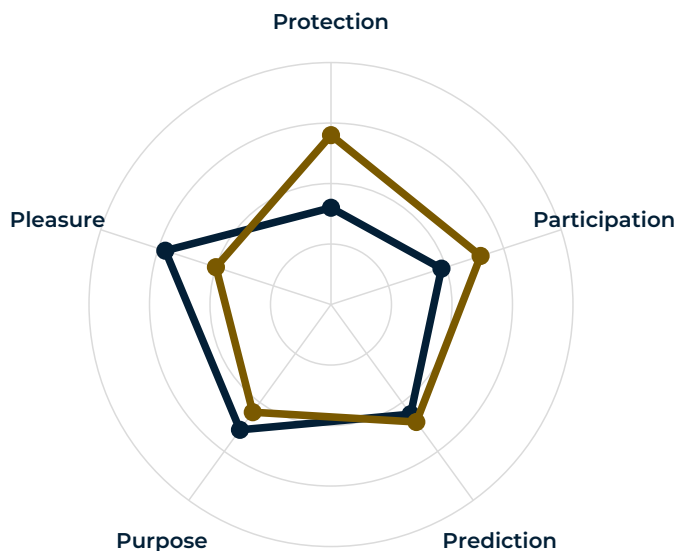

Detail 3 sentence 1 describing how the pair operates when the pressure is on. Detail 3 sentence 2 describing how the pair operates when the pressure is on. Detail 3 sentence 3 describing how the pair operates when the pressure is on.

DO THIS

Name the pattern out loud within the first two minutes of the next disagreement.

Why these matter

Emotional Safety

THE ITEM

I find it easy to say what I actually want when we disagree about emotional safety.

THE READ

Alex scores 42 here and Jordan scores 78, a 36 point gap on item 1.

WHY FLAGGED

Rationale 1 sentence 1 describing how the pair operates when the pressure is on. Rationale 1 sentence 2 describing how the pair operates when the pressure is on. Rationale 1 sentence 3 describing how the pair operates when the pressure is on.

Emotional Safety

Predictability

THE ITEM

I find it easy to say what I actually want when we disagree about predictability.

THE READ

Alex scores 42 here and Jordan scores 78, a 36 point gap on item 4.

WHY FLAGGED

Rationale 4 sentence 1 describing how the pair operates when the pressure is on. Rationale 4 sentence 2 describing how the pair operates when the pressure is on. Rationale 4 sentence 3 describing how the pair operates when the pressure is on.

Predictability

Play

THE ITEM

I find it easy to say what I actually want when we disagree about play.

THE READ

Alex scores 42 here and Jordan scores 78, a 36 point gap on item 5.

WHY FLAGGED

Rationale 5 sentence 1 describing how the pair operates when the pressure is on. Rationale 5 sentence 2 describing how the pair operates when the pressure is on. Rationale 5 sentence 3 describing how the pair operates when the pressure is on.

Play

Reassurance

THE ITEM

I find it easy to say what I actually want when we disagree about reassurance.

THE READ

Alex scores 42 here and Jordan scores 78, a 36 point gap on item 7.

WHY FLAGGED

Rationale 7 sentence 1 describing how the pair operates when the pressure is on. Rationale 7 sentence 2 describing how the pair operates when the pressure is on. Rationale 7 sentence 3 describing how the pair operates when the pressure is on.

Reassurance

Pace

THE ITEM

I find it easy to say what I actually want when we disagree about pace.

THE READ

Alex scores 42 here and Jordan scores 78, a 36 point gap on item 9.

WHY FLAGGED

Rationale 9 sentence 1 describing how the pair operates when the pressure is on. Rationale 9 sentence 2 describing how the pair operates when the pressure is on. Rationale 9 sentence 3 describing how the pair operates when the pressure is on.

Pace

Debrief prompts

- 1 Where does each of them place responsibility for the last unresolved argument?
- 2 Which of the two moves first, and what does that cost them?
- 3 What would need to be true for the repair attempt to land?
- 4 Which facet would you work first, and why that one?
- 5 What is the risk of naming the pattern too early in the room?
